ILED

Sig Mare Nameplate Lighting

Main Characteristics

ILED Illuminated signalling panel for the night marking of offshore buildings.
Operating hours 50.0000

Specification / Technical details:

Housing	: Stainless Steel 316L
Visual Material	: UV-Proof Polycarbonat
Dimensions in mm	: 861x761x126 (hxbxt)
Font	: DIN 1451
Sign Height	: 650mm
Light Colour	: Yellow (592nm)
Weight	: 40Kg max.
Ingress Protection	: IP67
Voltage	: 110v AC 50/60Hz and 230v AC 50/60Hz
Light output	: 5-10cd/mm ² , adjustable
Visibility distance	: 500 Meter
Angel	: 124°
Power	: Approx 30Watt
Ambient Temperature	: -30°C to 35°C
